

Frontend Challenge - iOS
Victor Bozelli Alvarez

- I. $3 + 1 / 3 + 9 = 12$
- II. The answer is in the anagram.swift file
- III. A. The answer is in the fibonacci_recursive.swift file
B. The answer is in the fibonacci_iterative.swift file
- IV. I would use the Model-View-Controller architecture (MVC) because it is the native one used for development in iOS platform and it is a straight forward architecture for developing applications with user and network interactions.
- V. The project is in the CurrencyConverter folder.
